MLSO PROBLEM : Sun Sep 5 23:02:54 GMT 2004

I didn't get a new DLT Data Transfer summary today and the last one from yesterday indicates there was a problem with the transfer of CHIP data. There isn't anything I can do about, I explained that to others who receive the same data tape summary messages. We have enough disk space to store data there for a while, and data are also transferred via the Internet.
