COMMENT: Wed Mar 15 23:24:25 GMT 2006

Checking NOAA website images, Hawaiian Telcom is NOT up here working on the network so outage was some sort of intermittent.

\*\*MLSO PROBLEM\*\*: Wed Mar 15 23:32:49 GMT 2006

Net went down again. Lost connection to odo thru VPN, crashed mssrestore again.

\*\*MLSO PROBLEM\*\*: Thu Mar 16 00:03:38 GMT 2006

Went down in the rain to physically check for Hawaiian Telcom's presence. They were not on site. While down there talking with the NOAA guys, the net went back up. HT may be messing with the system from the Hilo end.

Restarted mssrestore, again, this time with an "&" to run it in the background so hopefully it'll keep running on odo even if we go down again over here.

GONG COMMENT: Thu Mar 16 02:18:07 GMT 2006

GONGsters may have been onsite -- unannounced. Noticed a car parked next to their shelter earlier. Just noticed that the turret has the protective shroud covering it. Car is gone.
