MKIV COMMENT: Wed May 20 17:21:25 GMT 2009

Turned off main KCC power inserted new receiver chip at U35 and installed jumpers correctly at P281, turned back on KCC power. Now all jumpers on the transformation board are back to normal. I received the chips from DigiKey yesterday. All seems OK except barrel stopped at 168.91 instead of 180 degrees, will try running Patrol.

MKIV COMMENT: Wed May 20 21:29:13 GMT 2009

Tried doing step #3 of the camera installation procedure and using setPixOffset to vary the zero-channel offset from 25 through 31, I used this syntax:

```
setPixOffset 0,28
```

in the akamai window, I can't see any difference around the hairline positions.

____end____

MKIV COMMENT: Wed May 20 21:31:47 GMT 2009

By the way, we can run the mk4 and do a Cal everyday again.

____end____

Wed May 20 21:47:39 GMT 2009 MKIV End Cal

Wed May 20 21:47:45 GMT 2009 MKIV Start Patrol

MKIV COMMENT: Wed May 20 21:55:42 GMT 2009

I left the pixel offset at 28 earlier.

____end____

MKIV COMMENT: Wed May 20 22:19:48 GMT 2009

Stopping due to clouds.
