\*\*PSPT PROBLEM\*\*: Fri Jan 22 23:31:59 GMT 2010

We found a tiny slow leak in the heat exchanger copper tubing, the leak is not a problem so we'll work on it more another day. It looks like it is at a "T" on the lower left area as you look at the plumbing up at the camera head with the 4-screw cover plate removed. This is the cause of the leak noted a few days ago.
