NOTE BY DARRYL: Wed Sep 8 20:12:37 GMT 2010

I threw away the old beat up extension cord that was in the main dome hanging in the way. I installed a heavy duty appliance cord against the wall and then a coil spring extension cord off of that, it can stay connected to the air pump on the lift even when the lift is being used, may have to disconnect it if we move the lift around the floor too far.
