NOTE BY BEN: Fri Feb 18 22:46:39 GMT 2011

Moved the last to services off of nene.

Alakai now boots off of kii:/opt/alakai/vxWorks, and we watch the console port of alakai via nahenahe:ttya

It should be ok to remove nene from the network at this point.

****GONG PROBLEM COMMENT BY BEN**:** Sat Feb 19 02:28:55 GMT 2011

Gong looks like it isn't communicating with MLSO any more.

mlgongx cannot boot, and mlgong can't access the internet

A check of all network equipment seems to suggest this shouldn't be the case

indicator lights are on everywhere they should be. I'm not sure what to do next to tackle this problem.
