CoMP COMMENT BY DARRYL: Tue Jul 5 17:12:52 GMT 2011

CoMP #1 HDD only had 70 GB of free space so it didn't take the 82 GB data folder from yesterday, I'll remove it and put CoMP #3 into place for backup storage, CoMP #1 will go into CoMP cabinet in PSPT dome, there are only 2 more HDD available for temporary data backup storage after CoMP #3 so we'll need more HDD or the data transfer system will need to be completed before we use the last of these HDD.

NOTE BY DARRYL: Tue Jul 5 17:40:56 GMT 2011

I put a strain-relief collar on the laptop power supply connector, it was regularly getting bent too far and cable was breaking. We need to preserve and protect our equipment as part of our daily routines, including fixing problems before they lead to full breakage.

CoMP PROBLEM COMMENT BY DARRYL: Tue Jul 5 23:19:24 GMT 2011

Ran out of space for data, I'll ask Don what we can delete on the CoMP PC so that we can collect more data.
