****MKIV PROBLEM COMMENT BY ALLEN****: Sat Jan 7 19:38:55 GMT 2012

Crashed. Lookks like the same problem Darryl/Ben saw yesterday. Barrel is stopped at CC W limit and display frozen. After KCC reset it comes up and positions barrel OK, but there is a display error shown in the akamai window on nahenahe and no display. After several tries at power cycling kcc the display came up OK. Did not need to reboot nahenahe.

****CHIP PROBLEM COMMENT BY ALLEN****: Sat Jan 7 20:41:26 GMT 2012

Kii crashed but failed to reboot. It gave an error message that there was an unexpected inconsistency in /dev/rdisk/c0/s4 which it was unable to repair and suggested running fsck manually. I ran fsck on ...s4 answering the questions it asked with my best guesses, it completed the repair and restarted OK.
