MKIV COMMENT BY BEN: Fri Mar 30 23:13:08 GMT 2012

Swapped vigra boards between alakai and akamai. Now MK4 has the good display board and chip has the suspect. A plan is in the works to remove the t_disp module from the chip code, if this works out alakai will go headless.

GONG COMMENT BY DARRYL: Sat Mar 31 00:32:05 GMT 2012

Despite 20+ mph winds from the SE the turret hasn't oscillated today.

____end____

CHIP COMMENT BY DARRYL: Sat Mar 31 00:34:07 GMT 2012

Note that after we put the CHIP Vigra video board into Mk4 we tried running CHIP w/o any Vigra board and the error messages looked the same as what we saw on Mk4 with the bad Vigra board. The flaky old Mk4 Vigra board worked OK in CHIP initially.

__end__

MKIV COMMENT BY DARRYL: Sat Mar 31 00:37:36 GMT 2012

I should also mention that Mk4 works well with the Vigra board from CHIP and we'll leave it in there for now.
