NOTE BY ALLEN: Tue Jul 31 16:53:50 GMT 2012

Flat tire on the way up mauna loa road today. I managed to hit one of the remaining pot holes that haven't been patched or paved over.

NOTE BY ALLEN: Wed Aug 1 00:14:48 GMT 2012

Aidan came up and told me that NOAA had canceled their LN2 delivery for this week due to the road paving. Since we can't go for an extra week without a fresh LN2 cylinder I called Steve at Gaspro to confirm that we needed them to deliver tomorrow after the paving was done for the day. He called back later to say that they would be able to deliver the LN2 in the late afternoon and that NOAA had decided to take their delivery as well - so ultimately much ado about nothing.
