COMP COMMENT BY BEN: Wed Aug 22 17:07:32 GMT 2012

I cant get the auto-occulter centering code to converge. I think this is due to motor slips in the positive E-W occulter axis. Occulter has been aligned by hand reasonably close but there isnt enough acuator range to get things perfect.

Note: the occulter.rcp has been removed from comp.cbk to prevent things from blowing up every time the cookbook is run.
