Mauna Loa Solar Observatory Observer's Log

---

Tue Feb 10 17:29:36 GMT 2015

Year: 15 Doy: 041

Observer: stueben

WEATHER COMMENT: stueben: Tue Feb 10 17:29:46 GMT 2015

Cirrus and altostratus cover most of the sky at present, strong gusty winds 30-45 mph, temp 41F. Awaiting clearer skies and lower winds before opening domes.

\_\_\_end\_\_\_

WEATHER COMMENT: stueben: Wed Feb 11 01:58:49 GMT 2015

Still have clouds and strong gusty winds.
