KCOR COMMENT BY stueben: Sat Apr 11 18:58:53 GMT 2015

Kcor was a little weird this morning. IL

Modulator temp was low due to controller out being off. Power dropout overnight?

Focus program initially didn't work - it wouldn't take images. Rebooting the PC didn't help. The observing program worked OK and after I stopped it the focus program worked again ???

WEATHER COMMENT: stueben: Sat Apr 11 19:47:19 GMT 2015

In clouds, blowing fog nearby. Instruments idled and domes closed.

____end____

WEATHER COMMENT: stueben: Sun Apr 12 01:37:43 GMT 2015

Still cloudy.
