GENERAL OBSERVATORY COMMENT BY waters: Wed Feb 10 19:36:17 GMT 2016

SGS adjusted

____end____

GENERAL OBSERVATORY COMMENT BY waters: Wed Feb 10 21:41:16 GMT 2016

Disconnected and moved the camera's that were on the deck inside. Taped any cords that couldn't be moved to the wall next to the door. The North cam is in the box Hale came in to give it support and the other is on the side. Blocks are in front of the box next to the UPS'. Concrete has been set and is drying. Should be good to walk on tomorrow, just mind the step up. SGS adjusted.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Wed Feb 10 23:48:07 GMT 2016

SGS adjusted. The plug that is outside on the deck keeps tripping. Tried to use it and wouldn't work. Noticed that when we tested it, the light wouldn't stay on and we had to keep resetting it everytime. Not sure what happened to it.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Thu Feb 11 02:17:20 GMT 2016

Sky is getting a bit bright. Not too bad yet, will keep an eye on it..
