GENERAL COMMENT BY berkey: Tue Oct 25 00:00:25 GMT 2016

Building camera has been moved over from a wireless to a wired connection. Hopefully this is stop the weird data drop outs we have been getting.

GENERAL COMMENT BY berkey: Tue Oct 25 02:46:33 GMT 2016

Some work was done on a SGS upgrade to capture more information for the data group to understand what configuration the observatory was in when data was taken. The sgs.exe was not recompiled so we will continue running with the "deployed" version.
