Went and checked the rain gauge we have had over 1" of precipitation since Friday. I am hoping they open Mauna Kea road soon lots of people doing stupid things like, climbing on the roof of our buildings, throwing snow balls at sensors and leaving rubbish on ground. I will be bringing this problem up at the next NOAA meeting.

I filled up comp and the dewar. I took the car up today so I am going the head down before it turns worse. The radar looks like more is on the way.
