GENERAL OBSERVATORY COMMENT BY waters: Sat Feb 4 18:01:41 GMT 2017

Had a bit of a surprise this morning. Allen had switched the days he had off by accident and showed up this morning. After a brief discussion, he decided to take his day off and so headed down.

GENERAL OBSERVATORY COMMENT BY waters: Sat Feb 4 20:41:47 GMT 2017

Comp occulter adjusted.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Sat Feb 4 21:55:51 GMT 2017

Our stand that we use to place our dewar on to refill it down below was broken; the bottom screws had detached from the wood. I brought up the stand and resealed the screws. Should last a bit longer but the walls of the center part of the stand are starting separate pretty badly. This might be the last time that screws will hold it together.

GENERAL OBSERVATORY COMMENT BY waters: Sat Feb 4 22:53:46 GMT 2017

Had to take a pipe wrench to our liquid nitrogen dispenser as the knob was closed tight. Was able to get it to move and then manually open it with my hand. On a side note, I think Nash installed the new fill tube or nozzle on our dispenser. Thank you!!!

GENERAL OBSERVATORY COMMENT BY waters: Sat Feb 4 22:58:13 GMT 2017

The wind is starting to pick up now, getting some gusts up to 18mph from due West. Going

g to keep a close eye on things.

GENERAL OBSERVATORY COMMENT BY waters: Sun Feb 5 02:28:46 GMT 2017

Besides the aerosols that moved in this afternoon, it was a nice day and I'm glad the winds stayed calm.
