
Mauna Loa Solar Observatory Observer's Log

Fri Apr 21 15:49:44 GMT 2017

Year: 17 Doy: 111

Observer: waters

WEATHER COMMENT: waters: Fri Apr 21 16:25:21 GMT 2017

Temp is at 40F with windspeed at about 6-12mph from the South-Southeast. Scattered alto stratus across the sky at present, as well as some cirrus. Will wait for better sky conditions before starting the instruments.

CoMP COMMENT BY waters: Fri Apr 21 23:49:19 GMT 2017

Since it is cloudy, Ben removed the occulter station in CoMP and took some measurements and pictures of various parts.

GENERAL COMMENT BY waters: Sat Apr 22 02:11:45 GMT 2017

Gave a tour to some University of Hawaii Students. To bad we didnt have any data from today. The Halpha looked pretty active so we might have seen something fun in kcor.
