Sat Nov 23 01:37:04 GMT 2019 Kcor Focus/alignment program exited

GENERAL COMMENT BY berkey: Sat Nov 23 02:40:25 GMT 2019

Lots of progress on the new kcor computer I can talk to all of the devices including cameras. However I still have some debugging with socketcam. The bitflow SDK upgrade from 2.3 to 6.4 seems to have broke something. As a first try the code was recompiled with the new libraries but I didnt get lucky on the first pass with this one.

NI and BITFLOW boards have been moved back to the original kcor computer. And everything seems to be working correctly on the old computer.
