GENERAL COMMENT BY berkey: Fri Dec 06 23:23:47 GMT 2019

Switched the display computer over to the new KVM switch.

Where before the old magic sequence to wake up the KVM controller was ALT+SHIFT+M held down at the same time. The new magic sequence is pressing SCROLL LOCK, SCROLL LOCK, SPACE BAR in order without pressing another key on the keyboard or moving the mouse.

Sat Dec 07 00:35:02 GMT 2019 Kcor Focus/alignment program exited

KCOR PROBLEM COMMENT BY berkey : Sat Dec 07 03:28:29 GMT 2019

Kcor PIXe Chassis won't power up.

I think it got too cold and cannot startup. Hopefully it sorts itself out tomorrow.

____end____

GENERAL COMMENT BY berkey: Sat Dec 07 03:33:27 GMT 2019

Sun barely came out of the fog/clouds before it set behind the mountain.
