****KCOR PROBLEM COMMENT BY waters**** : Sun Feb 16 01:01:20 GMT 2020

Starting from 23:39:17 UT and until it was caught at 00:54:38 UT, the data was in the wrong polarization state. Nothing was done to trigger this, so no idea what caused this.

****KCOR PROBLEM COMMENT BY waters**** : Sun Feb 16 01:14:39 GMT 2020

Note that sopping and restarting Kcor synoptic fixed the problem. Also, this happened to Allen on Decemeber 31.

Nice day, aerosols were kept down because of the moderate wind we had all day. Hope for more days like this.
