GENERAL COMMENT BY berkey: Wed Nov 09 01:32:02 GMT 2022

Troubleshooting of the observing console keyboard seems to point the the FenTek mini-keyboard being the source of the kvm keyboard issues.

For now the inline usb hub and fentek board have been removed from the observer console. Now we need to hit scroll lock scroll lock to switch monitors upstairs and downstairs. Note on the downstairs keyboard we need to hold the [fn] button down to access scroll lock.

UCoMP COMMENT BY berkey: Wed Nov 09 01:35:56 GMT 2022

Did an initial test of the tuning software for the spectrograph data we plan to use later this week. Code now seems working and ready to use with the spectrograph.
