GENERAL COMMENT BY lisapg: Thu Sep 24 22:47:16 GMT 2026

Did some prep for possible coming rain from Nolo; moved some materials closer to the building, sealed up holes that I found on the outside of the building, moved some things from the rack directly under one so the windows as we did some water from said window and also moved the goal zero next to the ecoflow.

No data today. Hope tomorrow is favorable enough to do any last minute prepping up here. Otherwise, everyone stay safe.
