GENERAL COMMENT BY lisapg: Thu Oct 08 22:46:01 GMT 2026

Gave a tour to Steven Johnston from EPC Service Inc. and a general site walk and talk through about what's been going on up here. He is the point of contact for any questions, comments or concerns with what is happening on site for NOAA. If he doesn't have the answer for our question(s), he is the gentleman who will be chasing down that answer.

His information has been pinned up on our cork board at the observatory in case we need to get a hold of him at anytime when work is going to be/being done up here.
